

FABIAN

A child of its time

FAGERHULT

Fabulous Fabian!

As Fagerhult marks 70 years, we have decided to celebrate in a classic way. Fabian is a subtle retro design deeply connected with our innovative heritage. When launched in 1969 Fabian was Sweden's, maybe even the world's, first ever fitting made from plastic. It was a huge success and sold over 4 million units. Fabian 2015 has been the subject of a gentle facelift; now in sheet steel or glass but with its familiar, chunky lines, it now includes the latest in lighting technology. A "child" of its time.

Versatile

There's a Fabian for every application. Fabian adds extra sparkle over café tables, desks and counters, in windows, bars, hotels and even homes.

A close-up photograph of a modern lamp fixture. The top part is a bright red, glossy, bowl-shaped shade. Below it is a black, cylindrical base with a smooth, matte finish. The lighting is dramatic, highlighting the curves and textures of the materials against a white background.

Contemporary

Fabian is just as up to date now, as it was in 1969 and now comes with a super efficient, dimmable, long life, high quality LED-module.

Colourful

The richness of colour has always been Fabian's hallmark. There are 26 standard colours to choose from. We also offer an exclusive version in opaque glass. The opaque shade has a contemporary twist, adding interest to any interior. Play with colour & materials, mix & match!

Fabian was launched in 1969 • Design Håkan Fransson
• The unique screwless design made assembly possible in just 11 seconds • Fabian was manufactured until 1995 and sold in 4 million units • The success was a result of a combination of smart design and functionality at an affordable price, attractively packaged. • The original Fabian bedside luminaire was later accompanied by floor, table, and window versions. A Swedish glass manufacturer produced tumblers for beer and schnapps inspired by Fabian • Fabian is represented at the Swedish National Museum where it is on display in the museum's design collections.
